

Custom Designed Products that meet Specific Customer Requirements

For over 30 years, Custom Connector has been designing and manufacturing high quality electro-mechanical connecting devices for a variety of industries.....and not just standard products either. Take a look at some of these custom products that have been designed, tooled and are being built for our clients:

After reviewing the parameters of the application and requirements of the client, our staff will provide the best design solution at the lowest overall cost. We have 2-D as well as 3-D CAD capabilities and our 3-D designs can make the tooling process quicker and more accurate. Our plant is ISO 9001 compliant assuring each client ultimate satisfaction in the end product.

So if it's a light-duty circuit board application or a heavy-duty hard wiring problem, send us your requirements and let us provide solutions for you.
